

About this report: Energy Trust solar and storage incentives are open and we are accepting applications in PowerClerk. This report provides details for both residential and business incentives throughout the end of year transition period. Future allocations are subject to change. For more information on available solar and storage incentives, please visit our website at <https://www.energytrust.org/solar-storage/> or contact us at solar@energytrust.org.

Incentive Updates:

- 2026 Residential incentives are open for projects installed after Jan 1, 2026.
- 2025 Residential incentives are closed. We are no longer accepting applications for projects with estimated completion dates in 2025.
- 2025 Business incentives are open through December 31, 2025.
- 2026 Business incentives will open on January 1, 2026.
- Open incentives for [Tribal Nations](#), [Multifamily Properties](#), and [Qualifying Nonprofits](#) can be found at <https://www.energytrust.org/solar-storage/>.
