¹ The unit must conform to CEE's Unitary Air Conditioning specification for Tier 1 efficient equipment.

² EER/IEER assumes a heating section type of electric resistance or no heat. Deduct 0.2 EER/0.2 IEER from efficiency requirement for all other heating section types.

HVAC savings are based on average estimates only. Your actual savings may vary.

Custom Incentives May Be Available

Energy efficiency measures not listed may still be eligible for custom incentives of up to 50% of the incremental cost between standard and high-efficiency equipment not to exceed 25¢ per annual kWh saved and \$2.00 per therm saved.

Talk with your Program Delivery Contractor (PDC) about how you can receive these incentives or visit our website at <http://www.energytrust.org/pe>. You can also call us at 1.866.202.0576.
