

Solar incentives for customers of Portland General Electric and Pacific Power

Energy Trust allocates funding for solar electric systems into incentive "steps." When funding in a step is fully reserved, the funding in the next step becomes available with a new incentive offering. This report shows the status of the current steps. For additional details about the current, past and upcoming incentive steps, see pages 2-5 of this status report.

Updates from the Program

8/17/2018: Energy Trust has received sufficient reservations to fill Pacific Power Business Step 3. Step 4 rates are now available.
