

Solar incentives for customers of Portland General Electric and Pacific Power

Energy Trust allocates funding for solar electric systems into incentive "steps." When funding in a step is fully reserved, the funding in the next step becomes available with a new incentive offering. This report shows the status of the current steps. For additional details about the current, past and upcoming incentive steps, see pages 2-5 of this status report.

Updates from the Program

4/5/2018: Energy Trust has received sufficient reservation to fill PGE Business Step 1. Step 2 rates are now available.
